Having implemented a variety of delivery methods, the family-owned company is considered a pioneer in terms of sustainable client centric business today.

We are professional-grade courier solution that meets the end-to-end needs of your transportation business. Your business can become more effective and save money with Best Choice delivery services.

Professional Services:

We sends drivers in clearly marked professional vehicles.

We have a cuttingedge communication system with two-way data transfer in every vehicle. Our professional vehicles are all equipped with GPS tracking technology which operates in all over Kuwait. To ensuring your cargo travels safely from your pickup to delivery location, our professional vehicles are monitored by exceptional CCTV interior cameras and can even transmit a two way communication signal from Head Office to each professional driver. Our cutting-edge communication system displays each driver's position history in real time allowing courier to pinpoint each vehicle at any stage of the delivery.

Advanced Courier Software Technology:

We embrace innovative technology to better serve our customers. Our exceptional courier technology doesn't only benefit our company but our customers as well. We have a modernized customer portal which is managed by our customers from order entry to tracking.

We strive to keep our company customer centric in which our Web Portal offers our customers instant access to account needs, such as report generation, order entry, price quoting, real-time tracking and tracing, customer self-dispatching, shipping labels and other reports, fully customer managed address book and more. Customers can also view their invoices and payments in real time after each delivery.
